

# Alberta Organic Online Directory

In Alberta there are now more than 350 organic producers and processors with an ever increasing amount of organic buyers. What the sector now needs is a comprehensive one stop shop for connecting to those markets. With funding from the Organic Federation of Canada and in partnership with the Saskatchewan Organic Directorate and Alberta Agriculture and Rural Development, Going Organic is launching a new comprehensive interactive online organic directory. Don't miss being part of it!

- Promote the organic sector
- Get connected — find each-other
- Allow buyers and consumers to find your products
